Dear Andrew Little,

Thank you for your email. Under the contributor’s contract authors sign when creating a SAGE Research Methods Case, the author is allowed to deposit/post the final, published version of their SAGE case on their institution’s website/repository after its publication on SRMC. As this case has published, your academic may post “The Challenges in Researching the Relationship Between Physical Attractiveness and Altruism Using Economic Games” within the Staffordshire University repository. We ask that a full citation to the case and a link to the case on the SRMC website (http://methods.sagepub.com/case/researching-relationship-physical-attractiveness-altruism-economic-games) please be included.

If you have any questions or I may be of further assistance, please let me know.

Best regards,

Craig Myles

Thank you for considering the environment before printing this email.

Hi,

I am writing to seek permission to deposit an article/paper from one of our lecturers on our institutional Open Access repository at Staffordshire University UK STORE (eprints) http://eprints.staffs.ac.uk

In the repository we deposit a bibliographical record of the research and a copy of the full text (either the Author’s Accepted version or the Published version), where we can obtain Open Access permission.

We are seeking to clarify the Open Access archiving permissions for the following paper and to ask if LAMONT, Neil may deposit a full text copy in our repository, either in the format of the author’s Submitted version, the author’s Accepted version or your Published version:
http://eprints.staffs.ac.uk/id/eprint/4132

The institutional repository is a not-for-profit service for our academic authors, providing access to the full-text of their publications where permitted. Full bibliographic details are given for each article, including the journal of original publication, etc.

Many Thanks

Andrew Little
