Meet the authors

Lynn Machin is an Award Leader, Senior Lecturer and an MA, Ed.D, PhD Supervisor within the School of Education at Staffordshire University. Lynn has had a variety of roles within initial teacher training in further education (FE) including developing the modules that make up the Diploma in Education award. Her particular research interest is the exploration of how students can learn to learn, transformational learning and teacher training in formal and informal learning environments. She draws on more than 25 years' teaching experience; in the UK and overseas. She has written and co-authored several books for teachers within FE, including *A Concise Guide to the Level 3 Award in Education and Training* and *A Complete Guide to the Level 4 Certificate in Education and Training*.

Duncan Hindmarch is an Award Leader and Senior Lecturer within the School of Education at Staffordshire University. With a background in teaching English for Speakers of Other Languages (ESOL), he has over 19 years of teaching experience. Duncan is a Senior Fellow of the Higher Education Academy and has led development and implementation of ESOL, Initial Teacher Training (ITE) and education programmes. Duncan has co-authored several books, including *A Concise Guide to the Level 3 Award in Education and Training* and *A Complete Guide to the Level 4 Certificate in Education and Training*.

Sandra Murray is a Lecturer within the School of Education at Staffordshire University. Sandra, having taught for many years in a FE college, has a wide range of experience supporting and teaching teachers in the FE sector and has been teaching on Initial Teacher Education programmes since 2006. Her particular research interest is inspirational and outstanding teaching. She has written and co-authored several books for teachers within FE, including *A Concise Guide to the Level 3 Award in Education and Training* and *A Complete Guide to the Level 4 Certificate in Education and Training*.

Tina Richardson is an Award Leader and Senior Lecturer within the School of Education at Staffordshire University. Tina has taught in compulsory education, FE and higher education (HE). For the last 19 years she has been involved in teacher training for FE, in particular the subject specialist qualifications for teachers. Her particular research interest is the use of meta-cognitive reading strategies in the Functional Skills classroom. As well as teacher training books, including *A Concise Guide to the Level 3 Award in Education and Training* and *A Complete Guide to the Level 4 Certificate in Education and Training*, Tina has also co-authored a book on using e-readers in the classroom.

Acknowledgements

We would firstly like to acknowledge the use within this text of the Microsoft Office PowerPoint registered trademark.

We would like to thank our families, friends and colleagues for their continued support during the writing of this book.

We also want to thank our publishers, Julia Morris and Di Page, for their professionalism, friendliness, guidance and support.

Finally, we would like to thank you for taking the time to read this book. We hope that you enjoy reading it and we wish you all the best with your studies.

Lynn, Duncan, Sandra and Tina

About this book

Welcome to this book, which has been written with you, the learner, in mind. If you are about to embark (or even if you are already enrolled) onto a level 5 Diploma in Education and Training (DET) qualification then this book is for you. This new third edition includes an additional chapter on you and your learners' mental health and emotional well-being. The book aims to support you in your studies as you work towards achieving your DET qualification. It does this through:

- alignment of chapters to the 2014 Standards underpinning the level 5 DET qualification and as provided by the Education and Training Foundation;
- encouraging you to critically reflect upon your practice;
- incorporating information and tasks that can help you with your referencing and study skills;
- providing case study scenarios and examples;
- indicating sources of information for further in-depth study;
- being research informed and written by teacher educators with learners' needs in mind;
- providing critical questions and critical tasks throughout and at the end of each chapter;
- providing information regarding optional units;
- providing information about possible progression routes following achievement of the level 5 DET qualification.

In this third edition theoretical frameworks, policies and literature have, as appropriate, been updated. Examples provided of practice have been considered to reflect teaching and learning in the current FE climate. The topics, questions and tasks within this book have been tailored to the demands of the level 5 DET qualification and other, similar, teacher training qualifications designed for trainees working within the further education and skills sector.

Each chapter begins by providing a visual concept map of the topics to be covered, professional links to the 2014 Standards and definitions of some of the key terms within the chapter. The detailed text is accompanied by critical questions and tasks to encourage you to think more deeply about the issues or examine your practice, and a final section in each chapter provides you with an opportunity to check your understanding and assess your learning. Case studies are included throughout to bring the text to life and show how the theory can be applied to practice.

The penultimate chapter of the book provides information about possible progression from the level 5 DET qualification. It includes information about recognition of prior

xvi ABOUT THIS BOOK

learning (RPL) which is a possible pathway for you to use credits gained from your DET qualification, or similar, towards other qualifications, including a BA or MA degree. The final chapter provides coverage of key study skills, including advice about reading critically, note taking, presenting your work and using Harvard referencing correctly.

Suggested answers for some of the questions within the *Check your understanding* sections can be found at the back of the book. There is also a helpful glossary of terms and acronyms (see Appendix 2) as well as appendices providing useful templates for key documents that are mentioned within some of the chapters. So, in a nutshell, this book is, as it says on the cover, a concise guide to the Level 5 Diploma in Education and Training. It contains up-to-date references to significant policies, coverage of a range of topics related to being a teacher in FE and it does this with you, the reader, in mind.

Introduction

KEY DEFINITIONS

<i>Accreditation</i>	A qualification that leads to a certificate being awarded to learners by an awarding organisation or university.
<i>Awarding organisation</i>	An organisation recognised by Ofqual for the purpose of quality assuring and accrediting qualifications.
<i>Contact time</i>	The amount of time allocated to the qualification for guided learning.
<i>Credit</i>	Unit of accreditation – one unit of credit on the Qualification Credit Framework is notionally equal to 10 hours of learning.
<i>Diploma</i>	A qualification that has 37 or more credits.
<i>Education</i>	Acquiring knowledge and skills through teaching and learning.
<i>In-service training</i>	A qualification route for trainees who are currently employed as a teacher or trainer.
<i>Pre-service training</i>	A qualification route for trainees who are not employed as a teacher or trainer and are given a placement in order to practise their training.
<i>RQF</i>	The Regulated Qualifications Framework catalogues all qualifications that fall under the remit of Ofqual. It replaced the Qualifications Credit Framework (QCF) in 2015.

INTRODUCTION

All of the chapters within this book provide you with specific information about teaching and learning. However, it is important that you also have some background information

2 LEVEL 5 DIPLOMA IN EDUCATION AND TRAINING

about the sector and an understanding of the reasons for the seemingly constant change to teacher training within further education. This introductory chapter provides you with:

- an understanding and appreciation of the historical background that led to the introduction of the level 5 Diploma in Education and Training (DET) qualification;
- an outline of the purpose of the level 5 DET qualification;
- an appreciation of the requirements of the level 5 DET qualification.

Terminology

The further education and skills sector refers to all education undertaken by learners aged 16 and over. Terms like post-compulsory education and the lifelong learning sector (LLS) encompass all post-compulsory education regardless of where it occurs, whereas further education (FE) generally refers to post-compulsory education that takes place within a college environment. These terms continually interchange with each other and the use of them is often dependent upon the shifting political landscape as well as when associated reports and literature were written. You are likely to hear all of these terms used by your colleagues and tutors; however, as the sector is now known as the further education and skills sector, for ease and brevity this book will use the term FE throughout.

Similarly, differences in the names given to teacher training provision within FE also exist. Variations in the terms used for this within literature, policy and reports include initial teacher training (ITT), initial teacher education (ITE) and post-compulsory education and training (PCET). Again for ease of brevity, this book will use the term ITE throughout. You will find a list of some of the abbreviations that are used in the further education sector at the back of this book (Appendix 2).

A SHIFTING LANDSCAPE

The further education and skills sector includes:

- further education colleges;
- community learning and development;
- higher education (HE);
- work-based learning;
- offender education.

Within these environments there exists an extensive range of subjects (ETF, 2016) and learners are taught across a range of abilities from pre-entry (below level 1) to HE (level 7). You can find more information about award levels by looking at the Regulated Qualifications Framework (RQF) which replaced the Qualification Credit Framework (QCF) in September 2015 – you will find the web address for this in the reference section at the end of this chapter. According to the Regulate Credit Framework (RCF), in order to teach such diverse groups of learners it is necessary to have an equally diverse teaching workforce and, due to continual political influences, this workforce has been, and continues to be, subject to constant change.

Table 1 Key documents and reports

Date	Title	Comments
1944	Butler Act	This Act introduced a tripartite system of secondary education, ie grammar, secondary modern and technical schools.
1944	McNair Report	This report followed the Butler Act and raised concerns about deficiencies in the system of recruiting and training teachers, particularly those involved in teaching post-compulsory education.
1957	Willis Jackson Report (1957)	Promoted the concept of a qualified post-compulsory workforce.
1966	Russell Report (1966)	Continued to build on the concept of a qualified post-compulsory workforce.
1972	James Report (National Archives Cabinet Papers, 1971–72)	Promoted post-compulsory teacher training being accredited by universities.
1992	Further and Higher Education Act (National Archives Cabinet Papers, 1992)	Transferred responsibility of funding and governing post-compulsory education from LEAs to the FEFC, leading to a more economic and cost-efficient approach.
1998	FENTO Standards (Lingfield, 2012)	FENTO implemented a set of post-compulsory teacher training Standards. Awarding bodies and universities reviewed their provision in line with these Standards. Although sporadic, training of teaching staff increased. These Standards were rolled out nationally in 2001.
2002	Success for All Report (DfES, 2002)	The first of several reports suggesting that post-compulsory teacher training be reviewed and that properly trained teachers could improve the UK's workforce and economic prospects.
2003	Initial Teacher Training of Further Education Teachers (HMI 1762) (Ofsted, 2003)	The report concluded that FENTO provided a good baseline of what was required of teachers but lacked any ethos of professional development.
2004	Equipping our Teachers for the Future (DfES, 2004)	Pivotal in the implementation of the LLUK and the introduction of a new suite of ITE qualifications. This report also noted that training beyond qualified teaching status was necessary in order for teachers to be up to date with learners' needs.
2005	Foster Report, Realising the Potential (Foster, 2005)	Stressed the need to address the issues of an ageing workforce and the need to improve vocational and pedagogic skills through comprehensive workforce planning.

4 LEVEL 5 DIPLOMA IN EDUCATION AND TRAINING

Date	Title	Comments
2006	Raising Skills, Improving Life Chances (DfES, 2006)	Considered that the UK's economic future depended on productivity as a nation and that FE providers were central to achieving this, but was not currently achieving its full potential as the powerhouse of a high skills economy.
2006	Prosperity for All in a Global Economy – World Class Skills (Leitch, 2006)	Prosperity for all could be achieved through a national training programme for those teaching in the LLS.
2007	LLUK Standards (LLUK, 2007)	These replaced the FENTO Standards.
2007	Further Education Teachers' Qualifications (England, No 2264)	These regulations stipulated that all teachers working in the LLS needed to be registered with the IfL and submit evidence of qualification and annual continual professional development. All lecturers joining the sector after 2001 needed to become qualified within their identified role.
2009	Enquiry into Teacher Training in Vocational Education (Skills Commission, 2009)	Specifically the enquiry set out to examine whether teachers in the LLS were being trained in the skills to deliver the emerging 14–19 vocational curricula – and proposed the merger of the General Teaching Council and the IfL in order for those working within the LLS to have parity of qualifications with teachers in schools.
2009	Workforce Strategy Report (LLUK, 2009)	Set out priorities for training teachers including the need to employ a diverse range of teachers with backgrounds and vocational skills that align with the learners that they teach.
2009	Skills for Growth (BIS, 2009)	This document proposed phasing out funding for the IfL and the membership fee payable by trainees and teachers.
2011	Wolf Report (Wolf, 2011)	This report considered how vocational education for 14–19 year-olds could be improved and promoted the concept of FE teaching in schools to ensure that young people are taught by those best suited to do so.
2012	Lingfield Review (Lingfield, 2012)	This report recommended the deregulation of ITE and suggested that the regulations had not made the intended impact.
2012	Consultation on the Revocation of the Further Education Workforce Regulations (BIS, 2012)	A response in relation to the proposed revocation of regulatory teacher training.

Date	Title	Comments
2013	Qualifications Guidance for Awarding Organisations: Level Five Diploma in Education and Training (LSIS, 2013)	A new framework of units and credits for initial teacher education was introduced.
2014	The Education and Training Foundation	Introduction of a new set of FE teacher standards. These replaced the LLUK (2007) standards.
2015	The Society for Education and Training (SET)	The SET provides a professional body for teachers within PCE.
2016	Sainsbury Review Report of the Independent Panel on Technical Education	Tasked with improving technical education.
2016	The ETF Qualifications in Education and Training	Provides an update of the suite of post-16 teacher training qualifications.
2016	Post-16 Skills Plan	A framework for post-16 learners to develop employability skills.
2019	Introduction of T Levels	T Levels courses will be equivalent to three A levels.
2019	Higher technical education: the current system and the case for change	Looks at level 4 and 5 technical qualifications.

Critical question

Why have all of these policies and reports been necessary?

Comment

You will find some reasons provided below as well as by looking at some of the readings suggested at the end of the chapter and by doing some research.

Background and reasons for some of the changes in FE

Although attempts at educating the working classes, albeit to a limited extent, can be traced back for several centuries it was not until the 1940s that any real concerns were raised about the quality of the teaching within further education. Both the Butler Act (1944) and the McNair Report (1944) identified inadequacies within further education. Both also presented the notion of appropriate training for teachers within FE and were pivotal in the subsequent

6 LEVEL 5 DIPLOMA IN EDUCATION AND TRAINING

provision of short training courses. These courses focused on developing teachers' subject specialisms rather than developing their pedagogical skills (Orr and Simmons, 2010).

Further reports, for example the Willis Jackson Report (1957) and the Russell Report (1966) continued to emphasise the need for robust further education teacher training courses; the courses that were available were mainly focused on subject specialisms and were voluntary rather than mandatory. A pivotal change came about in April 1992 when, in order to give FE colleges more autonomy and responsibility for growth in student numbers, the implementation of the Further and Higher Education Act resulted in the incorporation of FE colleges. Responsibility for FE colleges transferred from Local Education Authorities (LEAs) to the Further Education Funding Council (FEFC), which in 2000 became the Learning and Skills Council (LSC) (Armitage et al, 2003). In April 2010 this was replaced by the Skills Funding Agency. It was the function of the LSC to ensure that high quality post-16 provision was available to '*meet the needs of employers, individuals and communities*' (DfES, 1999, p 23). With this mandate and with post-compulsory education being increasingly profiled by the Labour government's (1997–2010) belief that improvement to the teaching and learning provision within FE was necessary for the development of a '*world leading education system that would be at the heart of national priorities for economy and society*' (DIUS, 2007, p 2), the gaining of qualified FE teacher status became increasingly important to those spearheading these initiatives.

Changes to Standards and qualifications

The Labour government's belief that raising the quality of teaching would lead to a better qualified national and global workforce was instrumental in the implementation of the Further Education National Training Organisation (FENTO) which swiftly rolled out a set of Standards. These Standards provided a good baseline of what was required of teachers but lacked any ethos of professional development (Ofsted, 2003). Following a series of yet more government reports (DfES, 2006; Leitch, 2006; Foster, 2005; DfES, 2004; see Table 1) FENTO was replaced by Lifelong Learning UK (LLUK) which, in 2007, rolled out a new set of Standards to replace those implemented by FENTO.

The LLUK (2007) Standards contained core units of assessment and learning outcomes that were designed with the intention of providing a benchmark of the skills and attributes required by trainees in order for them to become qualified:

- preparing to Teach in the Lifelong Learning Sector (PTLLS) – level 3 or 4;
- certificate in Teaching in the Lifelong Learning Sector (CTLLS) – level 3 or 4;
- diploma in Teaching in the Lifelong Learning Sector (DTLLS) – level 5.

However, although the impetus for the LLUK (2007) Standards was to develop and ensure the quality of the teaching provision within FE and was seen by many to have, at least in part, begun to achieve this aim (Crawley, 2012) they, like the FENTO Standards, were, just a few years after their inception, deemed to be '*inadequate*' (Lingfield, 2012, p 24) and in September 2012, amended workforce regulations meant that FE teachers did not have to be members of the IfL. So, following the abolishment of the IfL in 2012, the Society for Education and Training (SET) took over responsibility for conferring Qualified Teacher Learning and Skills (QTLS) in 2014 (ETF, 2016, p 8). From March 2013, LLUK was replaced by LSIS, who introduced a suite of new qualifications, ie:

- award in Education and Training – level 3 (12 credits);
- certificate in Education and Training (CET) – level 4 (36 credits);
- diploma in Education and Training (DET) – level 5 (120 credits).

LSIS was soon replaced by the Education and Training Foundation (ETF) who retained the suite of LSIS awards while also implementing a new set of professional standards. This book covers the mandatory requirements of the DET qualification and links to the ETF standards. Links to further information about the Award and the Certificate qualifications can be found at the end of this introduction.

WHAT IS THE LEVEL 5 DIPLOMA IN EDUCATION AND TRAINING QUALIFICATION?

The purpose of the DET qualification is to equip trainee teachers with the skills necessary to work in a range of contexts within FE. It might be that the qualification you are taking has a different title than a level 5 DET. Although awarding organisations will use the level 5 DET title (as determined by the RQF), higher education providers (HEPs) can accredit and validate their own teacher training qualifications which are then quality assured by the Framework for Higher Education Qualifications (FHEQ). These qualifications are mapped to the same Standards and learning outcomes as those presented in the level 5 DET qualification. A common title, and one that is recognised by providers of FE as being equivalent to the level 5 DET qualification, is Certificate of Education in Post Compulsory Education and Training. Furthermore, many HEPs also map the Standards and learning outcomes to higher level teacher training qualifications such as:

- Professional Graduate Certificate in Teaching in the Lifelong Learning Sector (PGCE) – level 6;
- Post Graduate Certificate in Teaching in the Lifelong Learning Sector (PGCE) – level 7.

The level 5 DET qualification is suitable for both in-service and pre-service delivery modes:

- in-service: this route is for trainees who are currently employed as teachers, ie trainees who are receiving on-the-job training and are work-based learners;
- pre-service: this route is for trainees who are not employed in the sector but do have access to teaching hours and a range of learning encounters. These teaching hours are often through a placement being provided for them by their award tutor.

Level and size of the DET qualification

In order to be accredited with a DET qualification you will need to achieve:

- 120 credits at levels 4 and 5, with a '*minimum of 61 credits at level 5*' (ETF, 2016, p 35).

One unit of credit is equal to 10 notional hours of learning (Ofqual, 2013).

The level of the DET qualification has been determined using the RQF. Each of these levels is categorised according to the level of '*difficulty and the standards of knowledge, skills and competence*' (Ofqual, 2013, p 1) that are required in order to achieve the

8 LEVEL 5 DIPLOMA IN EDUCATION AND TRAINING

learning outcomes and requirements for any qualification. The level 5 DET qualification is made up of:

- 75 credits from Group A. Within Group A are the mandatory units that you must pass to achieve your level 5 DET qualification;
- 45 credits from Group B. Within Group B is a selection of optional units that you (or maybe your tutor) can choose from. Whichever units you (or your tutor) choose they must add up to at least 45 credits. More information about the optional units can be found in Appendix 1.

The topics contained within the mandatory units (Table 2), are covered in this book. There are similarities between some of the topics in the mandatory units and those in some of the optional units, for example those relating to behaviour, inclusive practice, quality assurance and action research, so this book can also help you in your understanding and study of these.

Table 2 Mandatory units of the DET

Mandatory units – Group A 75 credits must be achieved from this group	Credit value	Level
Teaching, learning and assessment in education and training	20	4
Developing teaching, learning and assessment in education and training	20	5
Theories, principles and models in education and training (Note that achievement of this unit is a pre-requisite unit <i>Developing teaching, learning and assessment in education and training</i>)	20	5
Wider professional practice in education and training Development in education and training	15	5

Source: ETF (2016, pp 35–6)

It is possible that only certain optional units will be available from your initial teacher training institution. Your tutor will advise you about the optional units that are available to you as well as those which are the most appropriate for you in relation to the context in which you teach. In time it is possible that more optional units will become available, and again your tutor will advise you about these. You will find a link to LSIS and the mandatory and optional units available in the reference section at the end of this introduction.

All of the units are underpinned by a set of Standards that, as noted in Table 1, were introduced by the Education and Training Foundation in May 2014. You will need to demonstrate your ability to apply these Standards to your practice. The topics covered within this book can help you to do this. You will also find that each chapter maps the Standards to the learning outcomes being discussed within it and as is appropriate to do so.

Required teaching hours

The level 5 DET qualification is about developing and improving your practical skills and therefore you will need to have access to at least 100 hours of teaching practice. This teaching should be sufficiently varied as to provide you with opportunities to experience a range of teaching encounters. The ETF (2016) suggests that practice should be with groups of learners, ideally of 12 or more, but the majority of the teaching practice must be to five or more learners (ETF, 2016, p 17) and should include:

- different teaching practice locations/settings/contexts;
- teaching across more than one level;
- teaching a variety of learners;
- gaining subject-specialist knowledge through workplace mentoring.

Observation of your practice

In order to monitor your progress a minimum of eight observations, totalling a minimum of eight hours, need to take place throughout the whole of your course of learning and, although developmental, you will need to demonstrate that you have met a required standard of practice. Observations are normally of at least 30 minutes' duration. Specifically, Chapter 9 offers guidance about how you can prepare for your observations and what you can expect to happen during and after the observation process.

SUMMARY

You can see from the information provided in this introduction that, as trainee FE teachers, you belong to a sector that is constantly reshaping itself in line with government ideologies and policies. It is continually striving to make a difference and to train and to produce qualified and skilled teachers who can provide their learners with a quality education that will equip them with the skills, attitudes and attributes to live and work in modern society. By embarking on the DET or equivalent qualification you are taking an important step to becoming one of these teachers. This book will support you in your studies and as you progress further in your teaching career.

Appendix 1: Optional units available for the level 5 DET qualification

As noted in the Introduction at the beginning of this book, in order to be awarded a level 5 DET qualification you need to achieve:

- 120 credits – this is the total credit value of the DET qualification.

These 120 credits are made up from:

- 75 credits from the mandatory units in Group A;
- 45 credits from the optional units in Group B.

Of these 120 credits:

- a minimum of 20 credits needs to be at level 4 and a maximum (according to the guidance for HEIs) of 60 credits at level 4 (LSIS, 2013a, p 7).

Optional units are selected from a range of units that are available in Group B. Your tutor will be able to advise you about the choice that is available to you as, often, this choice may be dependent on what has been approved by the awarding body or institution accrediting the DET qualification for which you are enrolled.

The table below provides a list of the units that are available at levels 4 and 5. Some of the optional units are taken from the Learning and Development qualification and require practice, in a real work environment, beyond the mandatory 100 hours. Your tutor will be able to advise you about these optional units. You will find information about these and also about other optional units in the ETF (2016) document *Qualifications in Education and Training*

Optional units for the level 5 DET qualification

Unit title	Credit value	Level
Effective partnership working in the teaching and learning context	15	4
Inclusive practice	15	4
Teaching in a specialist area	15	4
Principles and practice of lip-reading teaching	12	4
Specialist delivery techniques and activities	9	4
Quality procedures within education and training	6	4
Understanding and managing behaviours in a learning environment	6	4

Unit title	Credit value	Level
Understanding the principles and practices of externally assuring the quality of assessment <i>(Learning and development unit)</i>	6	4
Understanding the principles and practices of internally assuring the quality of assessment <i>(Learning and development unit)</i>	6	4
Delivering employability skills	6	4
Develop and prepare resources for learning and development <i>(Learning and development unit)</i>	6	4
Develop learning and development programmes <i>(Learning and development unit)</i>	6	4
Engage with employers to facilitate workforce development <i>(Learning and development unit)</i>	6	4
Equality and diversity	6	4
Identify the learning needs of organisations <i>(Learning and development unit)</i>	6	4
Internally assure the quality of assessment <i>(Learning and development unit)</i>	6	4
Manage learning and development in groups <i>(Learning and development unit)</i>	6	4
Evaluating learning programmes	3	4
Preparing for the coaching role	3	4
Preparing for the mentoring role	3	4
Understanding and managing behaviours in a learning environment	15	5
Action learning to support development of specialist pedagogy	15	5
Action research	15	5
Developing, using and organising resources within the lifelong learning sector	15	5
Action learning to support development of specialist pedagogy	15	5
Action research	15	5

Appendix 2: Glossary of acronyms and terms

AO	Awarding organisation
ASCL	Association of School and College Leaders
ATLS	Associate Teacher Learning and Skills
BDA	British Dyslexia Association
BIS	Business Innovation and Skills (Department)
BKSB	Basic and Key Skills Builder
CAT	Credit Accumulation and Transfer
CAVTL	Commission on Adult Vocational Teaching and Learning
CET	Certificate in Education and Training
CIF	Common Inspection Framework
CPD	Continuing Professional Development
CPPD	Continuing Professional and Personal Development
Credit	One credit equals 10 notional hours of learning (QCF)
CTLLS	Certificate in Teaching in the Lifelong Learning Sector
DBS	Disclosure and Barring Service
DET	Diploma in Education and Training
DIUS	Department for Innovation, University and Skills
DTLLS	Diploma in Teaching in the Lifelong Learning Sector
EDT	Education Development Trust (formerly the Centre for British Teachers)
EdTech	Education Technology
EHRC	Equality and Human Rights Commission
ESFA	Education and Skills Funding Agency
EQF	European Qualifications Framework
ESOL	English for Speakers of Other Languages
ETF	Education and Training Foundation
FE	Further Education

FESS	Further Education and Skills Sector
FHEQ	Further and Higher Education Qualifications
FOG	Frequency of gobbledegook
GCSE	General Certificate of Secondary Education
GDPR	General Data Protection Regulation
GLH	Guided learning hours
HE	Higher Education
HEI	Higher Education Institute
HEP	Higher Education Provider
HSE	Health and Safety Executive
IfL	Institute for Learning
ILP	Individual Learning Plan
In-service	Employed in a teacher role
ISA	Independent Safeguarding Authority
ITE	Initial Teacher Education
ITT	Initial Teacher Training
JRF	Joseph Rowntree Foundation
LLN	Literacy, language and numeracy
LLS	Lifelong Learning Sector
LLUK	Lifelong Learning UK
LRC	Learning Resource Centre
LSA	Learning Support Assistant
LSIS	Learning Skills Improvement Services
NAO	National Audit Office
NARIC	National recognition information centre
NIACE	National Institute of Adult and Continuing Education

Appendix 6: CPD reflective template

Critical task

Based on the last time you attended CPD of any kind, fill in the reflective template. Make sure you think about how you are going to make use of the professional development (see Chapters 1 and 2).

CPD reflective template
Date:
CPD event Brief details (length of course, who delivered it, internal or external):
Participants Were other people from your workplace on the course? Where were the majority of people from?
Key learning outcomes* What did you learn/discover?
Reflections How can this be used in your teaching and learning?
Action points What actions do you need to take to use what you have learned in your job? (Do you need further training on this, do you need to speak to a line manager, can what you have learned be cascaded to other members of staff?)

** If you did not learn/discover anything useful, please use the boxes above to explain why this was. Perhaps the training was not at the right level for you or it was not appropriate for your job? Outline what training would be more suitable for you and discuss with your line manager.*

Appendix 7: Chapter links to the Professional Standards

STANDARD	CHAPTER
Professional values and attributes <i>Develop your own judgement of what works and does not work in your teaching and training.</i>	
1 Reflect on what works best in your teaching and learning to meet the diverse needs of learners	Chapter 1 Chapter 2 Chapter 4 Chapter 9
2 Evaluate and challenge your practice, values and beliefs	Chapter 1 Chapter 2 Chapter 4 Chapter 9 Chapter 12
3 Inspire, motivate and raise aspirations of learners through your enthusiasm and knowledge	Chapter 3 Chapter 7
4 Be creative and innovative in selecting and adapting strategies to help learners to learn	Chapter 9 Chapter 12
5 Value and promote social and cultural diversity, equality of opportunity and inclusion	Chapter 4 Chapter 7 Chapter 9 Chapter 11
6 Build positive and collaborative relationships with colleagues and learners	Chapter 3 Chapter 4 Chapter 6 Chapter 7
Professional knowledge and understanding <i>Develop deep and critically informed knowledge and understanding in theory and practice.</i>
